My Dear Aunt Lizzie
this is a note to say
that my dear mother
your sister Maggie died
with me here on 27th
November after a lingering
illness you know of course
that mother had a shock
6 years ago & was

paralysed down the left side, well for the past three weeks she took Paralysis of the Biceps & no medical aid could save her. it is a very great loss as she was very near & dear to us all & a better mother never lived I have buried her in Stratmanns to be near me. & she had a very nice funeral

every body loved her for her great sense of humor & christian spirit, my sister & I stood over her bed for three weeks & she ment to you all & often wished she could have seen you, I really am too hurt to write much more just now but will write again later. I hope you are all well & may God Bless you & do look after yourself
From your obice Peggy
